

The All India Council for Open Education (AICOE) is guided by a strong commitment to social and educational upliftment through voluntary, non-formal learning initiatives. As an autonomous educational trust, our objectives include:

- To establish and manage quality mock test and educational support programs across India.
- To promote the values of Indian education and learning globally through accessible resources.
- To work towards the community development and welfare of economically and socially underprivileged groups.
- To provide educational opportunities to the economically poor, needy, and rural populations.
- To open educational support centres for children, youth, and unemployed individuals.
- To organize seminars, workshops, and awareness programs for all age
- To contribute to the eradication of illiteracy through educational outreach and awareness.
- To promote cultural, moral, and social values through cultural programs, sports, and social engagement activities.
- To offer free or subsidized education and academic support to students from disadvantaged backgrounds.
- To cultivate a spirit of social unity and cultural appreciation among
- To offer non-formal education and support independent research in education and related disciplines.
- To provide scholarships and academic awards to students showing outstanding performance.
- To establish and manage institutions in vocational, cultural, technical, scientific, and agricultural fields for skill development and livelihood
- To provide assistance to differently-abled individuals, including artificial limb support, vocational training, and educational programs aimed at helping them achieve independence.
