

Senior Secondary Courses

The Senior Secondary Courses, offered by the All India Council for Open Education (AICOE) through its Coordinators and Centres under a Membership Scheme under the internal academic programme, are designed for learners who have successfully passed the Class X or equivalent examination from a recognized board and wish to continue their education towards the Level 1 Senior Secondary Foundation Course certification.

Students may select subjects from the prescribed scheme of studies. They are required to choose five (5) subjects, including one or two languages from Group – A, and the remaining subjects from Group – B. Additionally, students have the option to take two extra subjects from either of the two groups.

Important Legal Note:

AICOE's Senior Secondary Courses are non-formal and autonomous, and are not recognized or affiliated with any Government Board, Council, or University. Certificates issued under this program acknowledge completion of the course but do not guarantee eligibility for formal higher education or government-recognized qualifications. These courses are intended solely for personal development and self-employment awareness.
