

Vocational, Certificate & Diploma

The Vocational Certificate and Diploma Courses are conducted by the All India Council for Open Education (AICOE) through its Coordinators and Centres under the Membership Scheme, as part of the internal academic programme of this autonomous educational council.

These professional courses are designed primarily for students who have passed Class VIII (for certificate courses) or Class XII or equivalent (for diploma courses), and who are seeking skill development and career advancement opportunities. The Diploma Courses and Certificate Courses aim to address the skill gaps at the middle-management level in various sectors.

A detailed list of subjects and course content is available with the Centres and Coordinators.

Important Legal Notice:

AICOE is an autonomous, non-formal educational organization and does not hold any official government recognition or vocational accreditation for these courses. Certificates and diplomas issued under this programme are strictly for non-formal education and self-employment awareness purposes only. They do not guarantee eligibility for formal government-recognized qualifications, higher education admission, or employment.

Students and guardians are advised to carefully review and understand these conditions prior to enrolment.
